The above plan creator(s) have agreed that others may use as much of the text of this plan as they would like in their own plans, and customise it as necessary. You do not need to credit the creator(s) as the source of the language used, but using any of the plan's text does not imply that the creator(s) endorse, or have any relationship to, your project or proposal

FiL-Hyper: Tackling Federated Incremental Learning With Label Noise Via Hypergraph Guided Knowledge Distillation

Data Collection

What data will you collect or create?

We will not collect data and only use publicly-available data.

How will the data be collected or created?

We will not collect data and only use publicly-available data.

Documentation and Metadata

What documentation and metadata will accompany the data?

We will not collect data and only use publicly-available data.

Ethics and Legal Compliance

How will you manage any ethical issues?

There is no ethical issue.

How will you manage copyright and Intellectual Property Rights (IPR) issues?

The data are publicly available. There is no copyright concern.

Storage and Backup

How will the data be stored and backed up during the research?

We will not collect data and only use publicly-available data.

How will you manage access and security?

We will not collect data and only use publicly-available data.

Selection and Preservation

Which data are of long-term value and should be retained, shared, and/or preserved?

We will not collect data and only use publicly-available data.

What is the long-term preservation plan for the dataset?

We will not collect data and only use publicly-available data.

Data Sharing

How will you share the data?

We will not collect data and only use publicly-available data.

Are any restrictions on data sharing required?

There is no restrictions on sharing the data and findings.

Responsibilities and Resources

Who will be responsible for data management?

Data are publicly available. We will only manage the code, documentary and results, making sure that they are clear and reproducible.

What resources will you require to deliver your plan?

There are no resources required, except for computer.
